

METEOR 0.5

Top of the range wireless subwoofer

The METEOR 0.5 is the essential component when assembling a high-performance bass high fidelity unit or upgrading your hifi system to home cinema.

- Subwoofer with TRIANGLE sound, speed and dynamics for hifi and home cinema.
- 300W class AB amplifier for optimal quality (low distortion and impressive dynamics).
- New 28cm loudspeaker with sandwich diaphragm, fibreglass and paper honeycomb core, with a 150mm power supply unit.
- Loudspeaker equipped with a bass reflex system for deeper subwoofers.
- It is discrete, it is cube-shaped in order to make it easier to fit into a living room. It can be hidden behind an armchair or a piece of furniture. Its two smooth, flat sides make it easy to install against a wall.
- It has a black gloss finish and thus blends in with all types of speaker and with flat screens or can be installed in a room dedicated to home cinema.
- Wireless connection. Easy to connect, requires only one power point. Thus it is possible to set up a sound system in a place other than the normal listening room. It is the first time in Europe that a speaker design has offered this with a subwoofer.
- LED on façade to indicate power-on and stand-by (three colours, orange for wireless transmission, red for stand-by, green for wire transmission).

CODE EAN: 366021600288

TECHNICAL DESCRIPTION

| Type | Active bass reflex subwoofer with vent that transmits towards the ground |
|--------------------------------------|---|
| Number of loudspeakers | 1 |
| Diameter | 28 cm |
| Bandwidth (+/-3dB Hz-KHz) | 28 - 160 |
| Amplifier power (W Rms) | 300 |
| Remote control / wireless connection | yes /yes |
| Dimensions (H x L x P inches) | 16.9 x 15 x 16.7 |
| Weight (Kg) / (lbs) | 21 / 46.3 |

Connections

- 1 RCA stereo input,
- 1 high-level loudspeaker terminal connection
- 1 RCA LFE

Functions

- With "Auto" mode, light comes on when signal is detected
- Goes off automatically after 15 min without signal
- Phase change indicator between 0 and 180°
- Volume control
- Remote control credit card (ditto METEOR 0.1 Tc)
- 110&220V switch
